jtysu@stanford.edu

## Education

- **Stanford University** Palo Alto, CA  
*PhD student, Computer Science (4.0 GPA)* September 2013 - present
- **California Institute of Technology** Pasadena, CA  
*B.S., Computer Science (3.8 GPA)* September 2007 - June 2013

## Research experience (selected)

- **Twitter** *Research Intern, Summer 2015, Fall 2015*
  - Quantified the effect of Who To Follow recommendations on the structure of the Twitter network. (Scala, R)
  - Quantified the effect of showing structurally diverse users in Who To Follow recommendations. (Scala, R)
- **Stanford Management Science and Engineering Department** *Research Assistant, Fall 2014 - present*
  - Developed a model to predict results of sports games from information acquired during the game. (Python, R)
- **Microsoft Research** *Research Intern, Summer 2014*
  - Developed an algorithm to predict traits of Internet Explorer users from their browsing activity. (SQL, SCOPE)
- **Stanford Theory Group** *Research Assistant, Spring 2014*
  - Designed an algorithm to solve the multiple-fault replacement paths problem in linear query time.
- **Stanford Social Network Analysis Group** *Research Assistant, Fall 2013*
  - Designed and implemented an algorithm to generate graphs with specific subgraph counts. (C++, Python)
- **Caltech Department of Mathematics** *Summer Undergraduate Research Fellow, Summer 2011*
  - Proved that Tutte polynomials do not satisfy the Kontsevich conjecture. (Maple)
- **FAU Department of Complex Systems and Brain Sciences** *Research Intern, Winter 2010*
  - Used nonlinear differential equations to model therapist-client interactions. (Mathematica)
  - Solved the equations of the model analytically.

## Projects

- **SKIES** *Summer 2013*
  - Built image search for a collaborative education app. (Objective-C)
- **An analysis of congressional tweets** *Spring 2013*
  - Scraped tweets made by congresspeople and correlated them with relevant traits of the user. (Python, MySQL)

## Teaching experience

- **CS 161: Design and Analysis of Algorithms** *Instructor, Summer 2016*
- **CS 161: Design and Analysis of Algorithms** *Teaching Assistant, Fall 2014, Spring 2015, Spring 2016*
- **MS&E 111: Introduction to Optimization** *Teaching Assistant, Winter 2015*

## Awards

- Stanford School of Engineering Fellowship (2013, one year of funding)
- Top 500 Putnam (2008)
- Lingle Scholarship (2007, awarded to top two freshmen in incoming class)

- Axline Scholarship (2007, full ride merit scholarship)

## Publications
